

# RHODES SANDING BOOTHS

*"100% RECIRCULATION OF FILTERED AIR WITH THE CONVENIENCE OF DISPOSABLE CARTRIDGE FILTERS"*

## RHODES SANDING BOOTHS

The Rhodes Sanding Booths offer the ultimate in operator friendly dust containment. Booths can be integrated into an existing system or can function as separate units.

The Rhodes cartridge style Sanding Booths are an economical choice for most finishing operations. The booths feature 100% recirculation of filtered air with the convenience of disposable cartridge filters. Cartridge style Sanding Booths are available with an optional pulse blow down cleaning system to maximize cartridge life.

All Rhodes Sanding Booths are available with optional curtain enclosures to minimize dust migration. Bag type filtration is also available upon request.
